EUROPE'S FUTURE RETRENCHMENT OR REVOLUTION

With the exception of Russia. Lord Avebury in the "Nineteanth Century" says, the greatBates of Barope caunot produce the food required by their people, even at the present rate of living. They all import food and export manufactures. Asks away the market for their manufactures and they will be unable to buy the food they require. Until recently, however, they have had no effective comptition. The United States were, till within the last few years, mainly an agricultural community. Been now they require most of their manufactures for home use. Gradually, however, the surplus is increasing and the competition becoming more severe, Our great Colonies, morever, wisely or unwisely—unwisely as I think—are all sudeswouring to check the development of their great tracts of virgin soil, and to fosfer the 'own at the expense of the country. Take Canada, 'or instance, and look at the effect of Canadian duties on Canada herself. The winters -re very cold, and she compels her people to pay 10, 15, or even 20 per cent. more than they need for warm clothing. She needs railways to develop her magnificent agricultural districts in the West, and she artificially enhances the prices of rails. When I think over these things I sometimes doubt whether men have reason after all But the military and naval expenditure of the Colonies is trifling. They decline to bear any fair proportion of our expenses on the Army and Navy, and are technically within their right in doing so. We cannot, if we would, compel them, and would not if we could. If they contribute it must be done voluntarily. Only they must remember that there are at present no Imperial forces. The Army and naval expenditure of the United States and our Colonies is then every small o unpared with ours and that of other European States. Competition with America and our Colonies is then every small ounpared with ours and that of other European States. Boulac Reformatory.

The construction of the new reformatory at Boulac-Dacronr is proceeding rapidly. The cont of the building: is estimated at L.B. 100,000, It will be thirteen feddans in extent and will be divided into two parts, for the two sexes. There will be a mosque and workshops attached.

Hashish Seizure.

Last night, the Coast Guards received information that there was contraband on board a steamer in Alexandria harbour named the Byzantion. The vessel was watched, and two sacks, containing 110 kilos of hashish, which were thrown overboard, were seized. Two well-known smugglers, who were on board and threw the sacks into the water, were also apprehended.

Alexandria Tramway Co.

Alexandria Tramway Co.

Some local newspapers have announced that the Board of Directors of the Alexandria Tramway Company will abortly inaugurate a motor-bus service in the main streets where there are no tram lines. But we are informed that no definite decision has as yet been arrived at on this subject; it is at present merely a project and nothing more. The scheme is of course quite distinct from the new motor-bus company, which is to be formed soon in Alexandria.

Alexandria Employea.

The fourth annual general meeting of the International Society of Alexandria Employe's was held last night in the hall of the Conservatoire of Music. The chairman, Mr. George Rublié, opened the meeting, which was very largely attended. He gave an account of the satisfactory progress and the sound financial condition of the institution which now counts about four hundred members. The election of the new committee of twenty members then took place. The following were elected:—J. Dendrinos, A. Maravelli, J. Mignot, R. Paris, G. Rublié, Santarelli, Sarkis, J. Soulos, Stamatopoulo, A. Uliot, Taraggi, Belleli, L. d'Amico, A. Levy, Salama, Oragio Giorgi, Vautsier, Sabella, Agiraan, Stiemberg, Minariob. Messre. Brunone, Mannini, and Ranguis were appointed auditors. At a forth oming meeting there will be an election of the new chairman and other officers.

The Mixed Municipal Commission of Massourah was four ded by a Khedivial decree in June, 1881, but the institution did not have any practical existence until the end of 1898, owing to the difficulty of persuading the various elements of the population to pay a municipal tax without which a Municipal Commission could not exist. But in 1908 the discountent with the institution showed itself by many of the inhabitants of the town officially notifying. "Par acts d'huissier," the chairman of the Commission that they would no longer agree to pay the tax.

Mustapha Pacha Maher, the Moudir, of the Dakaklieh, Chairman of the Commission, however, succeeded in persuading them to renew their engagement as to the municipal tax for a third triennial period, from 1905 to 1907, and he gave them an undertaking to publish the conscientious account of the actual situation of the Municipality. This publication has just been issued and it is a very useful document for all those (we do not believe they are many) who take an interest in the development of municipal institutions in Egypt. The subjects treated of are naturally accessively local and of no interest to anyone outside, the town. But they show that Mansourah is s'earlily progressing and that the persons responsible for the control of the Municipal Commission have some ideas of civic duty.

THE MINET-EL-BASSAL FIRE.

AN AMERICAN'S INTERESTING QUERIES.

The adjustment committee have finished the settlement of all the claims arising out of the recent great cotton fire at Minet el-Bassal. It is very satisfactory to find how speedily the enormous amount of work, which has had to pass through the committee's hands, has been transacted.

Within less that two months of the configration the parties interested, name'y, two of the most important cotton-exporting firms in Egypt, have received the total amount claimed by them. Such expedition is unknown in similar cases in Europe, Here it is due to the liberal and easy terms of the agents of the insurance companies, who have done all they can to satisfy claimants as they are in this case well aware of the bora fides of all the firms concerned.

This is in a great measure due to the celerity of the adjustment committee and also to the great judgment exercised by Mr. Frank Hassiden, whose competence and resources for dealing with such crises are unparalleled in Egypt.

A New York correspondent has pat to the "Manchester Guardian" certain questions with reference to the above fire, which the journal confesses its inability to answer. The letter is as follows:—

RAS MAKONNEN DEAD.

ADDIS ABEBA, March 23.

The death of Ras Makonnen is an importan The death of Ras Makonnen is an important matter for Abyasinia as he was always held to be the probable successor of Monelik as Emperor of Abyasinia, for Menelik has no children. Ras Makonnen, it will be remembered, was designated by the Emperor as his representative at King Edwards coronation, and Europeans who have visited Abyasinia have almost invariably carried away the impression that, notwithstanding the absence of any formal indication of his wishes, Menelik was anxions to prepare the way for Ras Myconenis succession to the Abyasinia Throne to the Abyssinian Thron

any formal indication of his wishes, Menelik was anxious to prepare the way for Ras Makonnes succession to the Abyasinian Throne in the event of his own decesse.

Ras Makonnen was distinguished from the general bulk of the high offi sials who constitute the ruling class in Abyasinia. Mr. Augustus B. Wylde described him as "by far the clavarest and most enlightened man that the country possesses," and other Buropeans who have been brought into personal or official relations with him have forested a similarly high estimate of his character and talents. His exact age does not appear to be known, or at any rate to have been recorded, but he was probably a little over forty years.

In character, no less than in attainments, Ras Makonnes stood somewhat apart both from the general body of his countrymen and from other members of the ruling class. The Abyasinian soldier is by nature a roystering, swaggaring fellow, and since the defeat of the Italiana Europeans travelling in the country have not infergently had to complain of the conduct of the undisciplic at bands of soldiery whom they encountered. Ras Makonnes was brave and a tried soldier, as he proved on many expeditions against rebellious chiefs and in the Italiana chapiar, but there was nothing of a religions enthesiast. M. KHEDIVIAL THEATRE.

M. LE BARGY'S COMPANY.

(FROM A CAIRO CORRESPONDENT.)

M. Le Bargy and his colleagues are here at last and have so far given two performances. Le Marquis de Priola and Le Demi Monde. What a change from the usual "show" at the theatre! Real acting, and real plays, instead of the sham boredom with so few relieving tonches, endured (if not even admired!) by the unchanging audience of the Khedivial Opera-House. For all that, the audience was much the same as usual: there were the familiar faces, and the familiar cough, reatle, and whisperel mistranlation from French into Arabic of this or that phrase. It is indeed difficult to follow and listen to plays under such circumstances; and that is my chief excuse for giving no more than a general impression of both the plays as far presented. M. Le Bargy and Mile. Baréty are certainly the two stars, and so far each has had one great part, be as le Marquis de Priola, and she as Mme d'Ange. He is infinitely and delightfully varied, dignified, fisny—"fongueux" is the real word, — subtle and persuasive; in fact the real "homme d'esprit." Somehow, though, there were moments in the Marquis de Priola where he seemed to force the note, to be too ardent and emphatic; but the rapid delicacy of his "coortahip" acenes, with their subdued fire, were a delight. That play is what most worthy people would call "very French," but for all its oynicism, it has something most natural through ut, and typical. The other play, Le Demi Monde, is older, M. Le Bargy and his colleagues are her

and more psychological possibly, longer, and except for most of the last three sects, not so interesting. But those acts! the end of the 3rd, the 4th, and the beginning of the finale, these are great, and Mile. Barety gave a great interpretation. Every glance, intonation, gesture, was reality, painful and absorbing. I was able to follow that part, as the audience were really held by it, and, relatively speaking, one could hear all that was said on the stage.

We have Le Duel to nicht, one of M. le Bargy's great parts. The whole programme indeed is good. The re-t of the outs seemed to me to be quite adequate, not exactly wonderful but will able to appear with resdit in the company of the two stars: and that aays much. Mile. Bernou was perhaps the best. M. Dauvillier was good as de Nanjac, very good now and again. It will be easier to criticise after a faw more performances, and when we have seen the various "sides" of all these performers : certainly M. Le Bargy and Mile. Barety after in themselves a whole world of different phases of humanity: it is an education to see such acting. humanity : it is an education to see such

CONSTIPATION

To ensure a natural movement of the bowels it is most important to take plenty of exercise every day. Many men and women don't do this, and they become more or less costive, sometimes going two or three days without a passage from the bowels. This is a very serious thing, not only because constipation makes our food and blood impure, but because the prolonged presence of waste matter in the bowels strains the muscular walls, eventually paralysing them, so that instruments have to be used to remove the impurities.

Those who cannot get enough exercise, or whose work is sedentary, should use Doan's Dinner Pills, which are made from pure roots and berbs that act on the bowels, invigorating the muscular walls, and toning up the rerves, To ensure a natural movement of the bowels,

Deficated by request to LORD KITCHENER OF KHARTOUM. Crown 4to: 400 pp. 720 Illustrations.

Letter from Sir Rudolf von Slatin. Dear Mr. Ward, —Your delightful and most ateresting book on the Sudan has reached me manner in which the work is written and illustrated. All of us who have done our little illustrated. All of us who have done our little best to regenerate the country, after its terrible misfortunes, have received more than kind treatment at your hands... I don't suppose anyone realises more than I do the change thas come over the Sudan since my old and tyrannical master the Khalifa disappeared from the scene. Your description of the 'Peace and Progress' is, in fact, a sequel to my 'Pire and Sword in the Sudan.'

With kindest regards, believe me, Yours sincerely,

THE OLYMPIC GAMES.

About farty representatives of British sport have now signified their intention to compete for the laurels of the great O'ympis meeting to be held at Athens f om April 22 to May 2 and to be crowned, if victorious, by the King of the Hellener, after the Isshion of the ancient festival, which is to be reproduced so far as is possible in the revival.

the difficulties which they have had to overcome they are to be complimented on the
exceptionally good contingent they have got
together. If it is not so representative nor so
strong as it might have been it is not the
fault of the committee, but of circumstance,
which they could not control. There are
athletes who are not included whem one would
have liked to see uphalding the British colours
on the famous field. But Greece is a lone way,
and several leading amsteurs could rot give
up the necessary time. It is unfirmate, also,
that the United Kingdem will have no representative in a number of the competitions,
including shooting, wreating, lawn tennis,
football, and the uncoffwar. The United States

mays, whereas the British Government has
done nothing.

Britain, however has no reason to complain
of the men who will represent bee in the events
which are to be contested. The list, which is
complete except that the competitors in the
swimming, cycling, and gymusatic sections,
although named, have not been definitely
selected (Mr. John Matthews and Mr. A. Roskin sec certain starters in the bicycle race-), is
as follows:—

ire may also be one or two independent titors. The last day for receiving entrie

There may also be one or two independent competitors. The last day for receiving entries was March 22.

Quite a large proportion of the athletes are well-known Oxford or Cambridge men. Although the United States is sweding a numbr of excellent representatives, some at least of the flat races ought to fall to England. Mr. Charchill, Mr. McGough. Mr. Crabbe, Lieucenant Halswell, and Mr. Corrwalls in particular ought to give a good account of them selves. It is fully expected that most of the honours for the stalletic sports will be divided between England and America.

There ought to be bands playing as decolors flying when the contingent sein, off. Lord Howard & Walden goes out on his yacht, accompanied by Lord De-borough and Mr. Go ka amongst others, but most if the competitors will leave Victoria at 10 am. on April 16. They journay by way of Paris, Brindisi, Corfu, and Patras to Athen, while have been formed at Corfu and Patras to itte them on the way. As the athletic avents do not begin till the 27th, the majority will have a full week's rest to prepare for the tussle. The contingent is due to leave Athens on the reform journey on May 5; reaching London on the evening of the 9th.

BY RAIL TO THE 'HOLY MOUNTAIN'

OPENING UP THE ANTIQUITIES OF THE SUD IN

To Egyptologists and 'antiquaries the new Kareima-Abou H med line has high claims. It renders accessible a country rich in archaelogisal remains, dating from remote antiquiting to the 14th century of our era, when the Christian kingdom of Donzold was finally sweet away by the Moslems of Sensar. Along the banks of the Nile in the reads skirted by the new railway are man reined churches, mouss to its, and forters as of the Christian era in Donzola, which will well repay ax monation. But the place of greater interect passed by the railway is Jetel Barkal, the Holy Mountain of the ancient Expp isma a flattopped hill risingable play from the desert, and on the opposite beauty of the river is the village of Merowe. Here, or close by, was the Ehiopian city of Napata, and in the neighbo rhood are mony pyremids and temple which have revery the tense is the control of the railway, too, passes Ambukol and Kortiplaces famous in the annals of the ill-fated expedition for the relief of General Gordon, and the place where Colonel Donald Stewart and Mr. Frank Power, the Freech Conwell Herbin, and nineteen Greeks, sent from Khartoum by Gordon to meet Lord Wolseley, were decoyed abore and mordered by the Mahdista in September, 1884.

THE EGYPTIANS AT HOME

We extra t the following from Dr. J-mess
Henry Breasted's "History of Egypt from the
Earliest Times to the Persian Corquest" (2: s.
10). The surhor is Prof-ssor of Egypt delegy and
Oriental History in the University of Chicago,
and Director of Hisskell O install Moseum.
P om B-ok II., which is dévoted to the Old
Kingd'm, we take this sketch of tha A-oient
Egyptans in their ordinary home life:
The homes of the rich, the noble and official
Cars, were large and commodious. Methen, a
great noble of the third dynasty, built a b-me
over three hondred and thirty feet square. The
materials were wood and sun-dried brick and
the construction was light and airy, as suited
the climate. The ewer may latticed wind wa,
on all sides the walls of the living rooms were
largely a mere skeleren. like those of many
Japanese homes. Against winds and sand
atoms they could be closed by de-pping gailycoloured hangings. Even the palace of the king,
though of course fortified, was of this ight
construction; hence the cities of ancient
Egypt have disappeared entire yor left but
mounds containing a few soanty fragments of
roised walls Beds, chairs, atools, and chests of
ebony, inlaid with ivory in the finest work
maship, formed the chief articles of farniture.
Little or no new was made of tables, but the
rich vessels of alabaster, and other coatly
stones, of copper, or some; imes of gold and
allver, were pla ed upon base-hand standards
which raised them from the flor. The floors
were covered with heavy rous mon which
goeste, sape sially ladies, frequent y sat, in
preference to the chair- and at ols. The floor
was it hand varied; we fit that even the
dead desired in the hereafter "tem different
kinds of beet, eleven kinds of froit, becides all sorts of sweet- and many other
things." The coatiome of these ancient lords
was simple in the kexterme; it consisted merely
of a which liene kith, secoured above the bips
with a girdle or band, and hanging often
hand y to the knees, or again in another style
to the calif of the leg. The head was c hard y to the knees, or again in another style to the calf of the leg. The head was commenly haven, and two styles of wig, one short and ority the other with long treight i cks parted in he middle, were worn on all-tate consistent. A broad collar, often inlaid with a sily stones, generally hung from the reck but otherwise the body was bare from the waist up. With long at fit in hand, the gentlemen of the day was ready to receive his visitors, or to make a tour of inspection about his e-tate. His lady and her daughters all appeared in coatumes even more simple. They were clothed in a thin, closefitting, sleeveless, white lines garment hanging from the breast to the ankles, and supported by two bands passing over the shoulders. The skirt, as a modern modiste would say, 'lacket fullness,' and there was barely freedom to walk. A long wig, a collar and neck'ace, and a pair of bracelets completed the lady's costume. Neither she nor her lord was fond of sandals; although they now and then wore them.

MENA HOUSE.

The e-joy-b's country life at Mena House H-tel, the golf and cricket matches played thees, the or quest law in the pleasant grounds, etc., are still proving a great attraction to the hotel, and though the season is undoubtedly on the wane there is not much evidence of that there. On Sunday there will be a concert at 1 p.m. in the dining hall during londenou, of which the following is the pr gramme:

Marche—Tarragone—Chaputs
Valse—Le Sang Viennoiss—Strauss
Intermezo—Salut d'Amour—Elgar

pardu 3 france a 1717. In assume that the gage of 1 france a 152.

Notre marché des valeurs a été, ce matin encore, calme et sans affaires, avec des cours stationnaires ou faibles sur toutes les valeurs, à très peu d'exceptions près.

La National Bank a côturfé à 28 l'action ancienne, et 27 1/8 la nouvelle ; l'Agricole à 9 15/16. La Cassa di Sconto a fféchi à 215—216. Le Comptoir Financier s'est inscrit à 71/8. L'action Crédit Poncier est revenue à 796.

Mail Line a cloture à 43 ah. 6. Les Sucrenes sont remontées à 14—15.

Dans le groupe des Hôtels, les Nungovich out été offerts à 17 et les Upper Egypt à 5 5/16.

Parmi les petites valeurs, les Setates out été traités entre 1 15/16 et 2; la part de fondateur a avancé à 13. Les Delta Lund sont revenus à 3/8—7/16 et les Egyptian Constructions à 1 9/16. iona à 1 9/16.

Le mouvement qui tend à se dessiner sur les Land Allotment serait dù à des informations très favorables reçues de Chypre, où Sir Wil-liam Willocoks est allé arrêter, avec le gouver-nement de l'Iel, les bases de l'arrangement re-latif à la création de l'Agricultural Bank of

latif à la creation de la greco.

Opprus.

Suivant ces informations, Sir William Willscoks arrait obteau pour la nouvelle Banque
des concessions extrêmement avantageues;

Ainai, toutes les fois que, pour un exercice
quisiconque pendant la durée de la Société, les
intérêts recouvrés dans l'exercice, ainsi que les
sommes perques sur les prêts ou termes échas
et non resouvrés des exercices précédents, n'atfaind-saiant nas la somme nécessaire 1. pour et non recouvres des exercices precedents, nat-tiondasient pas la somme nécessaire 1. pour couvrir les dépenses et le montant des prêts ou termes échus et non recouvrés; 2. pour laisser un bénéfice net représentant le 4 % du capital engagé en prêts aux cultivateurs, le vernement de Chypre versera à la Banque, itre de subvention, le solde de la somme né-saire, en cas d'insuffirance du fonds de ré

On sait que l'Agricultural Bank of Egypt jouit idi du même privilège, à cette différence notable près que le gouvernement égyptien ga rantit indirectement un bénéfice net représen tant le 3 % de capital engagé en prêts aux

fellahs.

On s'attend que les pourparlers engagés depuis quelque temps entre l'Bat et la Société des Eaux du Caire, relativement aux terrains avoisinant les fittres de l'Abbassieh aboutissent dans un bref délai.

Le gouvernement serait, a sure-t-on, disposé à accorder à la Société l'autorisation de vendre ces terrains (une cinquantains de feddans) aux mêmes conditions que ceux du Vieux Caire, soit 2/8 pour la Compagnie et 1/3 pour l'Etat.

Le bruit court depuis hier soir que l'Ibrahimieh Ploughing Co. serait amenée à déposer son bilan par suite de la faillite des Sucreries.

Nous ne saurions dire à quel point cette rumeor est exacte. Un fait certain, c'est que les actions Ploughing ne sont plus cotées à la Bourse. Le prix de £8, indiqué jusqu'à ces derniers temps, était purement nominal; ces titres ne trouvaient pas preneurs même à £1.

Suivant des informations d'Alexandrie, les recettes du New Khedivial, appartenant à la Splendid Hotels Co., vont toujours augmentant dans les proportions les plus promettantes. Ainsi les recettes de la 2ème décade du mois courant acousent une augmentation d'environ la LE 350 sur la période correspondante de l'année dernière.

Ce surplus important est appelé encore à a accroître considérablement, étant donné, comme nous l'avons déjà fait observer, que les travaux d'agrandissement de l'Hôtel vien nent d'être terminés et qu'on est aux ap proches de la saison d'été.

Le taux de l'escompte à Londres vient d'être élevé de 1/8 à 3 5/8.

Hier, an Stock Brohange, le Consolidé anglais a baisse de 1/8 à 90 1/2. L'Unifiée a également résotionné de 1/8 à 100 1/2. L'Unifiée a également résotionné de 1/8 à 105 7/8, ainsi que la National Bank à 28 1/4. La Deira et l'Agrisole sont restées sivariées à 18 1/4 et 10.

A Paris, l'action Crédit Fonoier Egyptien a pardu 3 france à 797. La Banque d'Athènes a gagné 1 franc à 152.

BULLETIN DE LA BOURSE

(Avjourd'hui à midi et domis)

Aux raisons que nous avons déjà exposées lière est venne se joindre ce matin l'inactivité du samedi. Aussi y a-t-il accentuation de la baisse sur presque toute la ligne.

Il y a cependant une reprise marquée en Fondateur Allotment à 170, Fondateur Estates

à 13°5/8, et Brasserie des Pyramides à 146. L'Agricole est excessivement ferme à 9 15/16.

REVUE COMMERCIALE

Coton

A voir la façon dont nous avons débuté cette fois et surtout devant la tenue de notre marché pendant la matir ée de lundi, ercouragée quelque peu par la cou invation de la hausen Amérique, on aurait dit que nous allions d nouveau avoir une semaine gitée et m-ave mentée à l'instar de celles que nous aviorité; eues à maintes reprises ces temps dernier. Il n'en a rien été cependant, car il a suffique'ques gros vendeurs fissent leur apparities pour nous faire réactirmer dans la journée même du maxmom de 20 23/82, atteint pour le Mai, à 30 7/16. En clôture le ton a été toute-fois meilleur et avec New-York venant de nouveau en side, les deux, ésances de Mardi ont été soutences, quoique, an fond l'allure n'ait pas été dépourres d'une certaine hésitation. Le leademain, la baisse d'Amérique à la suite du rapport d'égrenage de Washington a inficencé plott fortement l'ouvertrore, mais les tentatives répétées des haussiers, s'appuyant sur la certitude d'ure reprise que faisaient entrevoir les dépêches de Price et des maisens dans les environs des 201/2.

A tout prendre, c'était un succès, mais ce qui a fici par prévaloir har dans l'apprès-midi, malgré la réalisation des pré fictions américaines, et qui nous a fait reculer à 20 11/82. Ce changement d'allure, provequé par une certaine hésitation parmi la spéculation la hauses, hésitation toque naturelle si l'ou preud en considération le niveau actuel des

par une certaine hésitation parun na pro-à la hausse, hésitation toute naturelle si l'on preud en considération le niveau actuel de preud en considération le niveau actuel de preud en considération le niveau actuer prix. s'est encore accentué asjonat'hui et la finale a été q e nous avons c'ouré en soir à 20 1/4, aprê étre tomé és un moment à 20 3/6.

20 1/4, après être tombés un moment à 20 3/6. En somme, ce n'est qu'on simple rotore à notre point de départ, mais il se reat pamoins de ce que nous avons vu ces qu'il y a un désir marqué cher beaucoup de haussiers de liquider graduellement à chaque et aprile. modérée et quant aux prix c'est par 23 poi te sur toute la ligne que la hause est repré-

sentée. Le fait capital et en même temps le plus intére sant de la semaine a été sans contredit la publication du dernier rapport d'égrenage de la saisoc. On a argué que sur le chiffre de 10,700,000 Balles, il y en avait 509,000 6gre nées en Acût 1905, mais est ce que o-la empéche que le rendement réel de la récolte actuelle soit de 10,700,000 Balles? Ce qui act plus important et q'il convient de actuelle soit de 10,701,000 bates le que est plus important et q'il convient de résnir. c'est que la dite quanti é comprend 9 0,000 balles de finters et que le poids moyen des balles n'es que de 503 livres, contre 515 l'année dernière, soit, de ce chef, une autre réduction de 250,000 balles sur la quantité réduction de 250,000 balles sur la quantité utilisable par la filatore comparativement à la campagne pré-éde-te. C'est du reste à cette analyse du rapport que l'on doit la reprise de 40 points qui a immédiateme-t suivi la baisee de 48 points, réduite à la fin du marché à 21 points, qui avait salcé, sous la première impression, le chiffre é oncé.

Price est à la banse et l'on affirme qu'il a formé un groupe pour l'accaparement du Mai. Il parle du prix de 12 cents comme certain à bref délai et comme justifié pour le restant de la campagne et s'appuie dans ses asser-ions sur la bes-ins de la filature qu'il estime à 11,70+100 balles et sur la mauvais t-mps qu'il

11.700 (00 balles et sur le manvais temps q contrarie les ensem ncements pour la nouv me les Indes donnent cette anné recontes. Comme les innes d'en 1805, il n'a peut 600 000 balles de moins qu'en 1805, il n'a peut être pas tort dans l'évaluation des retraits probables de la filature pour cette année.
